

A UNIQUE PROFESSIONAL
LEARNING OPPORTUNITY

Destination Christchurch

5-9 August 2019

Following the earthquakes in 2010 and 2011 when the city was devastated, rather than rebuilding schools just as they were, Christchurch committed to constructing innovative physical environments that enable future-focused education for all learners and their communities.

This immersive and engaging experience has been curated for educational leaders and designers who are passionate about the future of learning.

Across the week, you will visit innovative schools and gain insight into how these Christchurch communities have navigated disruptive change.

Christchurch is transforming itself as a learning city.

COME AND JOIN US

Your hosts: Anne Knock & Cheryl Doig

Anne has organised and led professional study tours for educators and architects since 2011 and she is excited to be working with Cheryl on this opportunity.

Cheryl is Director of Think Beyond. She is a Christchurch local, a leadership futurist, and a specialist in leading complex change. Cheryl has been a strategic voice in reimagining schools and learning in Christchurch.

The Details

Monday 5 August: Meet for dinner

Tuesday 6 - Friday 9 August:

Across the four days, you will visit boundary pushing schools and participate in strategy workshops to unpack the complex change/entrepreneurial thinking based in the innovation hub-schools.

Cost: \$2900 (individual traveller)

Inclusions

- Accommodation and breakfast
- Daily transport
- School visits and PD program
- Honorarium to schools visited
